FINANCIAL REPORT FOR THE FISCAL YEAR ENDING JUNE 30, 1983

The Annual Report on Dental Education Finances is a summary of the information contained in the seventeenth Annual Survey of Dental Educational Institutions. It constitutes a report of the financing of all 60 U.S. dental schools. The contents of the survey represent a collective action of the Council on Dental Education of the American Dental Association and the American Association of Dental Schools.

Organization of the Report

Table 1, Summary of Revenues, provides a statement of income for all major sources of income identified in the survey.

Table 2, Summary of Expenditures, provides a statement of expense for those major expense categories separately identified in the survey.

Table 3 to 16, Current Fund Revenues and Expenditures by Size and Control, provide more detailed data for selected categories of income and expense. Each display format includes the following data: 1) highest figures reported for the category; 2) lowest figure reported for the category; 3) mean for the category (average for all schools with non-zero entries in the category).

NOTE: Extreme differences between the high and low figures can reflect differences in accounting procedures among the institutions as well as real differences in income or expense.
